February 12, 2024

Dear Resident,

This letter is to inform you that the City of Cleveland, Division of Water Pollution Control will undertake a project to provide an added level of protection against flooding in the Bellaire Road area in the City of Cleveland. The **Bellaire Road Area Sewer Project** is scheduled to commence the week of February 26, 2024. Starting on Leeila Avenue, the project consists of replacing approximately 1,100 feet of sewer on Leeila Avenue between Bellaire Road and Wanda Avenue, then installing approximately 1,500 feet of relief sewer on Bellaire Road between Grimsby Avenue and Leeila Avenue, and finally replacing approximately 600 feet of sewer on Bellaire Road between West 130 Street and Grimsby Avenue.

The City of Cleveland has contracted with Fabrizi Trucking and Paving, Inc. to perform this work. The City of Cleveland will work with the contractor and you to insure minimum inconvenience during the construction period. The contractor will install barricades within the limits of the construction area. The sewer excavation will take approximately 4 months to complete. The pavement will be restored in the trench area and the street will be resurfaced within the limits of work. We ask for your cooperation in observing all traffic regulations and following detour signs.

The City of Cleveland will try its best to make this project a quick and safe one. Should you have any questions or concerns, please feel free to contact Project Manager Cecilia Mazzei at (216) 664-3779. Thank you for your cooperation in this important sewer project.

Project updates available at www.clevelandwpc.com, Twitter, Facebook and Instagram (#CLE).

Sincerely,

Ramona Lowery-Ferrell, Commissioner
Division of Water Pollution Control
