October 6, 2025

Dear Resident,

This letter is to inform you that the City of Cleveland, Division of Water Pollution Control will undertake a project to provide an added level of protection against flooding in the West 50 Street area in the City of Cleveland. The **West 50 Street Sewer Project** is scheduled to commence the week of November 3, 2025. The project consists of installing approximately 660 feet of storm main sewer on West 50 Street between Shadyside Avenue and #4235 Memphis Avenue.

The City of Cleveland has contracted with CATTs Construction, Inc. to perform this work. The City of Cleveland will work with the contractor and you to insure minimum inconvenience during the construction period. The contractor will install barricades within the limits of the construction area. The sewer excavation will take approximately 1 month to complete. The pavement will be restored in the trench area and the street will be resurfaced within the limits of work in the spring of 2026. We ask for your cooperation in observing all traffic regulations and following detour signs.

The City of Cleveland will try its best to make this project a quick and safe one. Should you have any questions or concerns, please feel free to contact Project Manager Cecilia Mazzei at (216) 664-3779. Thank you for your cooperation in this important sewer project.

Project updates available at www.clevelandwpc.com, Twitter, Facebook and Instagram.

Sincerely,

Ryan Lopez, Interim Commissioner
Division of Water Pollution Control
