July 27, 2026

Dear Resident,

This letter is to inform you that the City of Cleveland, Division of Water Pollution Control will undertake a project to provide an added level of protection against flooding in the Arrowhead Avenue area in the City of Cleveland. The **Arrowhead Avenue Sewer Project** is scheduled to commence the week of August 10, 2026. The project consists of replacing approximately 1,800 feet of existing sanitary main sewer and approximately 645 feet of existing storm main sewer on Arrowhead Avenue between East 185 Street and East 200 Street.

The City of Cleveland has contracted with Fabrizi Trucking and Paving, Inc. to perform this work. The City of Cleveland will work with the contractor and you to ensure minimum inconvenience during the construction period. The contractor will install barricades within the limits of the construction area. The **sewer installation** will take approximately 2 months to complete. We ask for your cooperation in observing all traffic regulations and following detour signs.

The City of Cleveland will try its best to make this project a quick and safe one. Should you have any questions or concerns, please feel free to contact Project Manager Cecilia Mazzei at (216) 664-3779. Thank you for your cooperation in this important sewer project.

Project updates available at www.clevelandwpc.com, Twitter, Facebook and Instagram (#CLE).

Sincerely,

Ryan Lopez, Interim Commissioner
Division of Water Pollution Control

Cc: Martin J. Keane, Interim Chief Operating Officer, Mayor's Office
Martin J. Keane, Director, Public Utilities
Danielle P. Graham, Executive Commissioner, Public Utilities
Michael D. Polensek, Council Member, Ward 10
Elie Ramy, P.E., Administrator of Engineering & Planning, Water Pollution Control
